Office Action Summary

Art Unit: 2839

Claims 1-4, 7, 10, 12 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Wise.

Claims 5, 6, 8, 9-11, 13, 14, 16, 17, 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wise.

Claims 1-17 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Electri-Pak 8 in view of Wise and admitted prior art (APA).

The references in each rejection are applied as in last office action. APA is applied for discussion of details of Electro-Pak device.

Applicant's arguments filed with the amendment have been fully considered but they are not persuasive. Reference to Wise, col. 7, lines 14-26 is unclear. Nothing in these lines is seen to affect the rejection. Wise, fig. 40 clearly shows how fig. 1 system is used for "four different circuits", each one using a different line or hot wire. This is basically the same as applicants fig. 2, 4 schematics. Use of duplexes by Wise does not affect the rejection. Functional recitations of "simultaneously" and of "one, two, three or four" if they apply to use of applicant device should equally apply to use of Wise, figs. 1-5 system. It is submitted that it would have been obvious to use any selected number of the outlets 44, 45, 44', 45'.

For Electro-Pak, "4-circuits" are specifically referred to and ~~depicted to~~ and depicted in "cross section of power module" fig. In front page fig, three outlets are on one side, it seems obvious that intent is to use three more on other side. Basically considered obvious to provide

wiring for different circuits, three, four, five, etc, based on needs for power at wall panel being designed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication should be directed to N. Abrams at telephone number 308-1729.
